Subject: RE: Ley Creek Flood Control Project

Lauren:

The County does possess certain drawings related to the dredging of Ley Creek. Double checking after our call of last week, apparently the drawings were not provided to EPA at any point in the recent past (i.e., the past 2 years), if ever. I will arrange to have a CD with the drawings forwarded directly to you. If you prefer that the CD go directly to someone else, please let me know the name and address of the preferred recipient and I will copy you on the letter of transmittal. It will go out this week.

Subject: Ley Creek Flood Control Project

Kevin,

Pursuant to our conversation today concerning which entity performed the rerouting/dredging of Ley Creek in the 1970s, I refer you to minutes from the December 15, 2010 meeting of the Environmental Protection Committee of the Onondaga County Legislature (available at <http://www.ongov.net/legislature/minutes/meetmins/December2010.html>) wherein it states, "In the 1970's Ley Creek was dredged by Onondaga County to address flooding." EPA is seeking any reports generated concerning this dredging project (e.g. proposals, designs, workplans, followups, etc.). Please let me know if the County can provide us with this information/documentation.

Regards,

Lauren P. Charney
